Objective

Aspiring Data Scientist and Machine Learning Engineer with hands-on experience in Python, SQL, TensorFlow, and deep learning architectures including CNN and LSTM. Skilled in data analysis, feature engineering, and data visualization, with a strong foundation built through internships and applied AI projects. Seeking a Data Scientist, Data Analyst, or Generative AI Internship role to apply analytical thinking and problem-solving skills to build impactful, data-driven solutions.

Education

Bishop Heber College

Master of Data Science, CGPA: 8.4

Jul 2024 – Apr 2026

Seethalakshmi Ramaswami College

Bachelor of Mathematics, CGPA: 8.3

Jul 2021 – Apr 2024

Skills

Programming Languages: Python, SQL

AI/ML Frameworks: TensorFlow, Keras, Scikit-learn, Flask

Libraries: NumPy, Pandas, Matplotlib, Seaborn, Librosa

Data Visualization: Power BI, Excel

Database: MySQL

Platforms: GitHub, VS Code, Jupyter Notebook

EDA: Data Analysis, Data Cleaning, Data Preprocessing, ETL Workflow, Audio Signal Processing

Projects

SmartDoc AI – Intelligent Document Processing (IDP) System

[Link](#)

Tech Stack: Python, Flask, MySQL, OpenCV, EasyOCR, Google Gemini AI, Bootstrap

- Built an AI-powered invoice processing application that extracts text from scanned documents using EasyOCR and converts unstructured data into structured JSON using Google Gemini AI, with results stored in a MySQL database.
- Implemented an end-to-end document workflow including upload, OCR preprocessing, an interactive dashboard, search, and export functionality (JSON/CSV/PDF) using Flask and RESTful API routing.

Emotion-Aware Voice Feedback System

[Link](#)

Tech Stack: Python, TensorFlow, Keras, Librosa, Streamlit

- Engineered an end-to-end Speech Emotion Recognition pipeline using a CNN-LSTM deep learning architecture to classify human emotions directly from raw audio signals.
- Extracted robust audio features including MFCC and Mel Spectrograms using Librosa, and deployed a real-time prediction interface with Streamlit for live feedback.

Experience

Data Analyst Intern - Cognifyz Technologies(Remote)

Apr 2025 – May 2025

- Built interactive Power BI dashboards to visualize key business metrics, enabling faster, data-driven decision-making across teams.
- Implemented DAX measures and optimized Power Query transformations to streamline reporting workflows and improve accuracy.

Machine Learning Intern - CodSoft Technologies(Remote)

Dec 2024 – Jan 2025

- Built and evaluated machine learning models on real-world Kaggle datasets, applying data cleaning and preprocessing techniques to improve reliability.
- Analyzed structured datasets using Python to extract actionable insights and validate model performance through systematic evaluation.

Certificates

- SQL for Data Analysis — **LinkedIn Learning** (verified certification)
- NCC 'C' Certificate — highest NCC honour B & C. Best Outgoing Cadet, College NCC unit; EBSB Camp completion.
- Type Writing (Junior Grade)
